TV shows, Cycling, Puzzles

PROFILE

After several years of experience in the restaurant and retail industries, I am currently reorienting myself to become a web developer. I am currently studying in a programming school and I am looking for a company where I can do a 12-month apprenticeship. My career path has allowed me to develop my adaptation, communication and perseverance skills. I like to take on challenges, learn constantly and use my problem-solving skills. I look forward to applying my technical knowledge in a challenging and positive working environment.
